FOR THE STAR. THE ORPHAN'S REVENGE. A TRUE STORY.

In 1853, Buenos Ayres declined numbering herself amongst the provinces of the Argentine Confederation. In consequence, she equally declined to recognize the authority of the newly elected President, General Urquiza. Urquiza declared war against her as rebellious to the Confederation. His army beseiged the city, and his fleet, commanded by the treacherous , we regret to say an American, blockaded the port. Basely abandoned by some of his officers, whom Buenos Ayrean gold had probably corrupted, and suffering from the want of his vessels, all of which were shortly sold to the enemy, he found himself in a weak and even critical condition. The mediating ministers Messrs. Schenck and Pendletion, Sir Charles Hothan and the Chevalier St. George, notwithstanding their earnest endeavors, had succeeded in effecting nothing towards a reconciliation of the contending parties; nor even could induce them to abide in good faith by mutual treaty stipulations. A game of fraud and trickery was best suited to their tastes, particularly to the authorities of Buenos Ayres. No agreement could have saved Urquiza's head had he fallen into their hands. He saw the perils of his present situation, and was considering as to how he might best extricate him-self, when the arrival of Mr. Pendleton was announced. It was about nine o'clock at night. Our minister found him aware of the danger that menaced him, and proposed that he should instantly proceed with his staff on board the U. S. steamer Water Witch, Commander Page. his soldiers might follow and take passage on board the English and French vessels lying in the river. The General did not hesitate a moment. He entered Mr. Pendleton's carriage and that night found himself on the deck of the Water Witch. The next day the seige was raised. The little American steamer, at Urquiza's request, stood into the port of Buenos Ayres and afforded him the satisfaction of taking a look at the excited populace along the mole, now chafing with disappointment in not having secured his person. The Buenos Ayreans wero indeed exasperated. The city was in a wild state of ferment. Besides the number of troops in every quarter of the town, it was a whole people that had risen in ferocious outcries against the outside forces, now so secure. Urquiza has never forgotten his indebtedness to us. He has invariably received our countrymen with marked attention and even partiality. But whilst these historical events are transpiring, let us to our story :

On the day of the raising of the seige, a company of about fifty men were stationed near the outskirts of the city; a kind of advanced guard. They were trawn up in double file, but leisurely reposing on their muskets. A few feet in advance stood their commander, a tall and wellbuilt man, of an ordinary face and dark complexion. He was engaged in a lively conversation with a young man of apparently eighteen, of a good height, smooth face and sharply defined features. There was a suppression about his well chiseled mouth that bespoke firmness of purpose. His small but dark piercing eyes shone brilliantly beneath delicate and well curved eye-brows. His hair was as black as a raven's feathers and short. He was dressed in a half military and half civilian's dress, and wore a sword at his side. The conversation taking a turn, he grew more earnest. "I should never fail to recognize him, I feel

assured. His face is perfectly familiar, I can see him now, and if he ever once crosses my path, may the Holy Virgin have mercy on him, Stopping short, before completing his remark, his attention was called to a middle-aged man

approaching in that direction. His eyes were for a moment riveted upon the moving figure. It was he beyond a doubt. "What ails you ?" inquired the officer.

Clutching his arm, and pointing with a trembling finger to the man that seemed to be hurriedly approaching them, he faintly muttered with clenched teeth "That is the man, I know him."

The officer started; but recovering himself after a quick glance, called for a musket. The order was obeyed. This he handed to his companion, whose pale face and quivering lip plainly showed that his emotions were deeply

The stranger was close upon them. He seemed to instinctively avoid the soldiers that

he now for the first time observed; not that he had seen anything passing in their ranks to warn him against nearer approach, but apparently merely to avoid observation and keep company to himself. So, changing his course, he was hurrying in another direction when the deep voice of the Captain hailed him. He obeyed. In appearance he was a perfect pancho. A low pancho cap covered his dark, rough, but beardless face. He wore a white and red purcho, apparently much soiled, and the short, deeply fringed breeches to match. His boots were made of the lower skins of a horse's hind legs, and ornamented with heavy silver spurs. He was tall and stalworth, but for the present put on a subdued look. It would have been difficult to recognize in his face the blackened heart that beat within.

"Are you a Unitarian or not; are you for Urquiza or Buenos Ayres?" somewhat sternly enquired the officer in command. "I am a peaceable man," was the reply,

"and would not willingly give offence to "But I have seen you in outside ranks, if my eyes failed me not," and a searching glance

from the figure before him showed that there might have been some reason in the remark. Seen me in the outside ranks!" exclaimed the stranger, retreating a step "0! no, Senor thing, but be kicked and cuffed through the Capitan, your eyes must have failed you. I am but a poor shepherd of Santiago, and have come a great distance on business to the city. I am at enmity with no one."

"Peaceable business!" remarked our young friend, with a curl of the lip. "Men in these peaceable business; men come here to fight. | nine months. | You belong to some party? Answer? More over, what means that weapon projecting from under your pancho? Be good enough to let me have it. Peaceable man, indeed!

The first impulse of the man thus addressed was to secret the pistol that had betrayed him: but handed it to the speaker at his request. The officer of the party, then, with a look at

his young companion, said : " My good man, you are at least a suspicious character. I cannot let you go. You will pass this night in the guard-house. If treated wrongfully, justice will be done you. This

soldies," pointing to his friend, "will accompany you. Bringing his musket to his side, and gracetully touching his cap, he led off with a fearful

triumphant smile his prisoner. They moved on in silence; exchanging a glance now and then, but seemingly uninclined to conversation. . The prisoner was quiet and thoughtful. His guard, on the contrary, excited and neryous, walked in a restless and impatient manner. Suddenly, the latter, after having proceeded some distance, took a cautious look around him and perceiving no one, halted.

"Stand," cried he to his prisoner. The prisoner stood, though not a little puz-

zled at the reason of the command. " Tell me, you mute creature, do you know me? Have you never seen me before, nor any one resembling me? Scan my features well The face, the eyes-all are familiar to you. Once you knew them well; but you do not know me now?"

"No," was the laconic reply.

" I will refreshen for a moment your memory. You must be reminded. If you do not recognize me, you are familiar with every inch of this ground around me. You know this tree and the rock that lies beneath it. Yes, I see you know them, and the blood starts to your cheeks, self-convicted feion! Have you forgotten that here it was, a dark November evening in 1842-0! you cannot have forgotten-you met a man, a good and honest man, whose life you took, whose throat you cut-bloody wretch ! | cause he is lazy !"

DR. STEPHEN BAILY,
OFFICE No. 198 PENNSYLVANIA AVENUE,
Three doors from 14th Street.

Dr. BAILY begs leave to inform the public that he can be seen at all hours, at his office, located as above. He feels assured that an experience of fifteen years' practice, with the large number of patients, and great variety of difficult cases that he has treated successfully, will enable him to surmount any difficulty, scientific or otherwise, relating to the Teeth. His own experience confirming the opinion of many men eminent in the profession, and especially Drs. Harris and J. and E. Parmly, has led him, long since, to discard all mercurial preparations for filling Teeth, also all Enamels, Gutta Percha, India Rubber, and Cements for the construction of Continuous Gum Teeth, and that Porcelian, mounted on Gold Plate, is the only reviable substance that can be worn in the

Yours very truly, *
Washington, Aug. 26, 1856. J. W. FKENCH.

Having employed Dr. Stephen Baily, Surgeon Dentist, of Washington city, to execute for me an important and difficult piece of work, which he did to my entire satisfaction, and in view of the fact that one of the most distinguished members of the Dental College of Baltimore, failed, after repeated trials, to perform the same work satisfactorily, it gives me great pleasure to express my entire confidence and high estimation of his professional skill.

Baltimore, Jan. 12, 1857. HARMANN BOGGS.

Extract from a note received from the late Hon. John M. Clayton. U. S. SENATE, Aug. 19, 1856.
The teeth you made for me work admirably; nothing could be better. Very gratefully,
JOHN M. CLAYTON.

To those that seek relief from the maladies of the teeth, I can cheerfully recommend Dr. S. Baily as a superior Dentist; he made a set of porcelian teeth for one of my family, and plugged several teeth for myself, and the work has all stood well for more than ten years.

"O, well, never mind, says the landlord, you are a clever fellow, and you may stay at my house as long as you please, and pay me when you get ready. Come, let's take a drink." Jack, very glad to be on such good terms with the landlord, walks up to the bar, and drinks to the health of his master. In ten minutes he is as insensible as a log. When he recovers from his mysterious sleep, he is out of sight of land.

He is awakened by the stern command, "Wake up here, and go to work." The poor fellow, rubbing his eyes, inquires: "What ship is this? Whither bound?"

"To Hong Kong." "How did I get here?" "Why, you shipped sir," says the master.

"I never shipped in this ship." "Yes, you did, sir, and you must go to work without any more grumbling," replied the captain, sternly.

glass in the stern of that ship," pointing to a ship in the stream. "Jump into my boat here, and I'll take you on board." So off they went. As the German sat in the stern of the boat, much pleased with the pros-

peet of a good job, the shark said to him,

Will you have a cigar." "Yes. So the glazer sat and puffed away as he used to do in his Faderland, but before they reached the ship he tumbled over in the bottom of the boat. The shark threw his pack of glass into the bay and running along side, hailed-"On deck there! lower away and haul up the man." A rope was lashed around him and he was hauled up. The shark run into the captain's office, saying, "Captain, I've got a first rate sailor here, he's a little boozy to-day, but he'll be all right to-morrow," and got his advance.
